

**Department of Energy**  
Washington, DC 20585

**JAN 29 1993**

Mr. Nels Jensen  
EG&G Idaho, Inc.  
P.O. Box 1625  
Idaho Falls, Idaho 83415

Dear Mr. Jensen:

This letter requests the continued provision of technical support by Mr. David Eaton and Mrs. Linda Munsen for the inspection of Enewetak Island Field Station, Marshall Islands, consistent with the Office of Health's previous Statement of Work (Enclosure 1). Use funds in the Office of Environment, Safety and Health's Project Number 93ES288 for this task.

Our office is reviewing the draft report prepared by your technical staff. We have identified that several of the concerns listed in your report may be inappropriately interpreted as representing an immediate risk to health and safety. We would like Mr. Eaton and Mrs. Munsen to return to Enewetak and work directly with Mr. Robert Loesch of our office to review and validate the categorization and correction of these concerns.

Also, we would like to have Mr. Eaton and Mrs. Munsen review and validate the corrective actions implemented by Raytheon Corporation at Enewetak. We are particularly interested in validating the actions by Raytheon to correct any potential immediate risk to safety and the environment involving Department of Energy facilities.

Mr. Loesch will lead the inspection, which will begin upon arrival at Enewetak Island on Wednesday, February 10, 1993 (February 11, 1993, Enewetak time), and conclude on February 13, 1993, with departure from the island on February 14, 1993 (February 15, 1993, Enewetak time). An itinerary (Enclosure 2) is provided for your planning purposes. Arrangements for travel will need to be made by your staff as indicated.

EG&G Idaho, Inc., will provide to the Office of Health a review and validation of both the concerns and Raytheon's corrective actions discussed above. EG&G Idaho, Inc., will integrate this review and validation into a final draft

of the report to be submitted to the Office of Health 1 week after the site visit is completed. If you have any further questions, please contact me on 301-903-6061 or Mr. Loesch on 301-903-4443.

Sincerely,

A handwritten signature in black ink, reading "C. Rick Jones". The signature is fluid and cursive, with the first name "C." and last name "Jones" clearly legible.

C. Rick Jones  
Director  
Office of Health Physics  
and Industrial Hygiene
